Presented by the Department of Pediatrics at the Stanford University School of  
Medicine and Lucile Packard Children's Hospital Stanford

Sponsored by the Stanford University School of Medicine

Lucile Packard  
Children's Hospital  
Stanford

*A Continuing Medical Education Activity*

### Statement of Need

The ever-increasing amount of new biomedical information requires pediatric and family primary care practitioners to obtain comprehensive, up-to-date information on a wide range of clinical issues encountered in daily practice. The Popular Pediatric Clinical Topics 2017 course will highlight recent advances in pediatrics presented by a variety of clinical faculty covering such topics as: neurologic emergencies in your office, trauma and concussion, hypertension in infants, sports injuries, cardiology, pediatric psychiatry, groin mass, asthma and sleep in adolescents. This course is presented in a mini-seminar format with cases, Q&A and time for interaction with the faculty.

### Learning Objectives:

At the conclusion of this activity, learners will be able to:

- Utilize best practice guidelines for the management of patients presenting with:
  - neurologic emergencies
  - groin mass of unknown etiology
- Evaluate the pediatric/adolescent athlete for sports related injuries, including head trauma/concussion and determine appropriate treatment strategies.
- Identify aberrant cardiac rates and rhythm in infants and toddlers.
- Differentiate between an upper airway and swallowing disorder in a child.
- Determine normal blood pressure ranges for infants, children and adolescents.
- Screen adolescents who participate in sports for cardiac disorders.
- Identify the signs and symptoms of a depressive disorder in a child or teen.
- Incorporate a strategy for suicide prevention in your adolescent patients.

### Target Audience

This activity is designed for pediatricians, family physicians, primary care practitioners, nurse practitioners, nurses and allied health professionals who care for infants, children and adolescents.
