Save Time and Stay Safe During Your Next Appointment

eCheck-In

Stanford Children's Health

Stanford | MEDICINE

At Stanford Children's Health, we are taking steps to create a safe environment and excellent experience at your next clinic visit. Here are some of the ways you can save time and minimize in-person interactions during your next visit:

❶ eCheck-In before your visit

To save time at the clinic, you can use eCheck-In through MyChart to:

- Update or verify personal and insurance information
- Pay a copay, if needed
- Sign required forms
- Answer questions about your symptoms and travel history
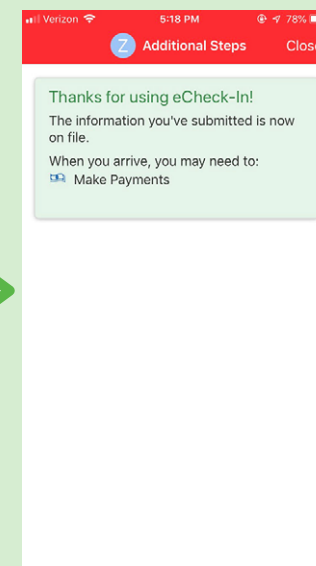

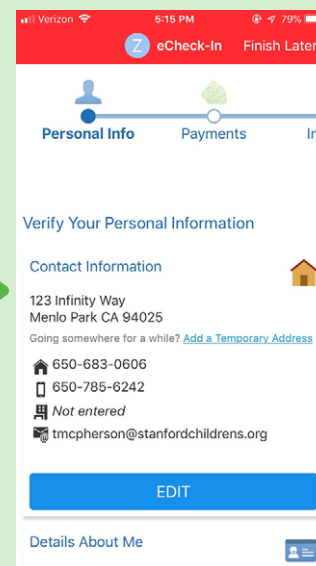

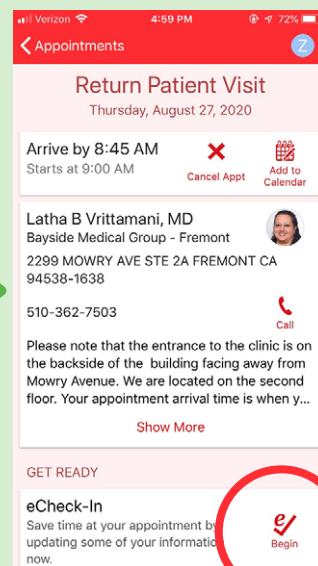

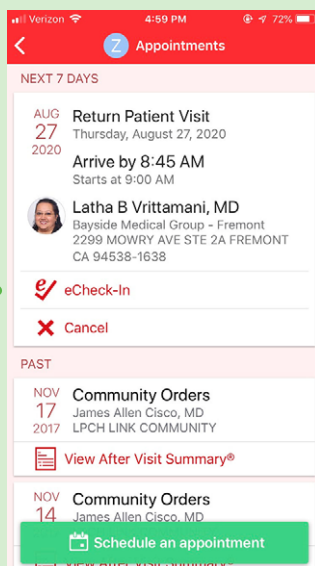

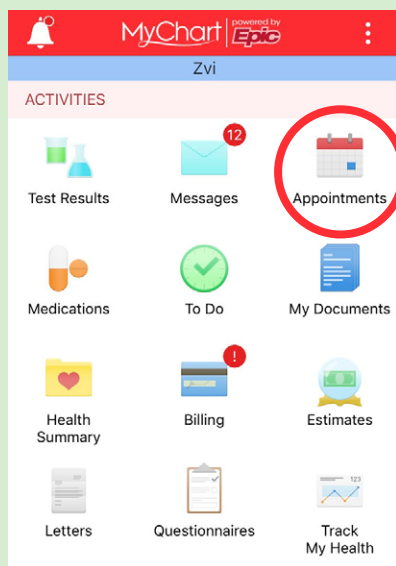

Step 1: After logging in, select **Appointments**.

Step 2: Select the appointment you'd like to check in to.

Step 3: Select **eCheck-In**.

Step 4: Verify or edit your information, pay a copay if needed, and sign required forms.

Step 5: You have completed eCheck-In —thank you.

❷ Increased safety

Our clinic environments and processes have been modified to ensure the safety of our patients and staff. Please review the **safety measures** we have put into place to know what to expect during your visits, and follow our **visitor restrictions** to help us maintain a safe environment.

❸ Arrive at the clinic

Please arrive on time, and notify our front desk staff of your arrival. All patients and visitors will complete a health screening at the clinic entrance.

❹ After your appointment: View a digital summary of your visit

Avoid paper handouts by viewing your doctor's notes and test results in MyChart when they are ready.
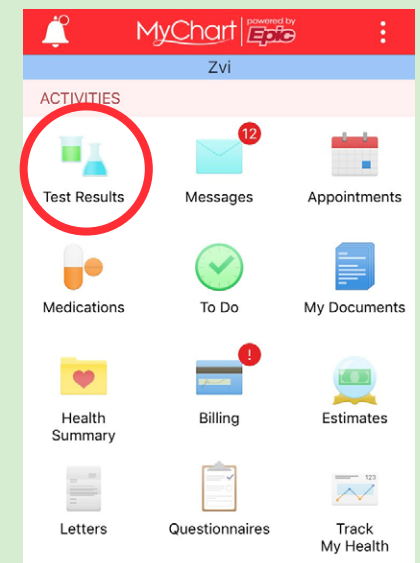

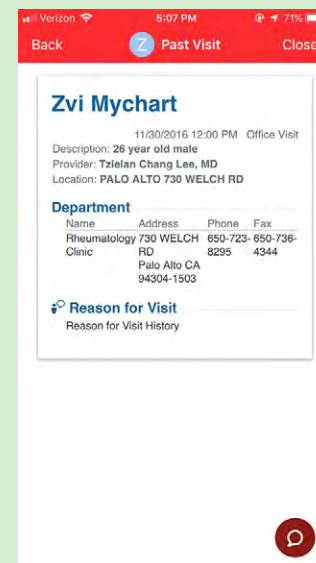

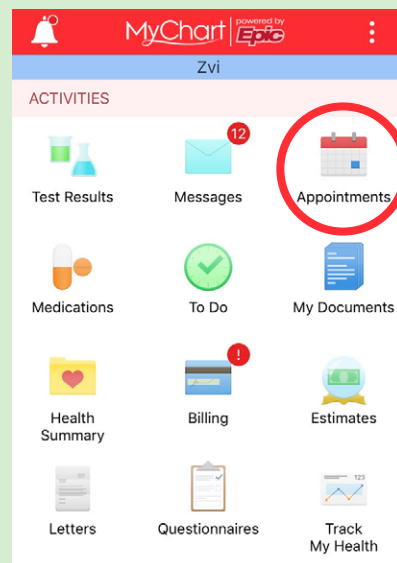

Step 1: In the Stanford Children's Health app, go to MyChart and select **Appointments**.

Step 2: Scroll to select the appointment and see your visit summary.

Step 3: To see test results, select **Test Results** from the MyChart home screen.

Not on MyChart? Visit **mychart.stanfordchildrens.org** or download the MyChart app for your mobile device.
